I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS:

This is one of the few pharmacies that my physician has been able to order the compounded medications which have made so great a difference in my life & the lives of her other patients. We strongly oppose the restrictions being proposed! The large pharmaceutical manufacturers cannot, & do not want to meet this need. Local small pharmacies are also unable to provide compounded medications.
